The "Learning Through History" part of the program sets you off on a purposeful journey via *America: The Last Best Hope Vol. II* with William J. Bennett, who recounts the riveting story of the last century's great wars, the rise of world Communism, the struggle for freedom at home and abroad, and the triumph of liberty. Seamlessly stepping in to join Bennett's narration is Linda Hobar, author of *Mystery of History*, who retells the story both of "wars of the world" and of "wars of ideologies" before moving on to more modern day conflicts, like tensions in the Middle East and the War on Terror. Along this chronological journey, you'll be asked to make some *Key Decisions in U.S. History* by answering period-specific questions pertinent to critical turning points in American history. You won't be alone in these decisions though, as you'll have the written aid of *Great Documents in U.S. History* and of *Great Letters in American History*, as well as the visual aid of *The American Testimony Video Set 2*. With these remarkable resources, America will come to life in landmark documents, timeless speeches, memorable letters, newsreel videos, motion picture footage, archival photographs, illustrations of antiquity, filmed reenactments, and colorful maps – all specific to key *U.S. History II* events.

And that's not all! Delve more deeply into *U.S. History II* with our Charlotte Mason inspired *Living Library!* This incredible book set has been selected for its narrative quality and its connections to the *U.S.*

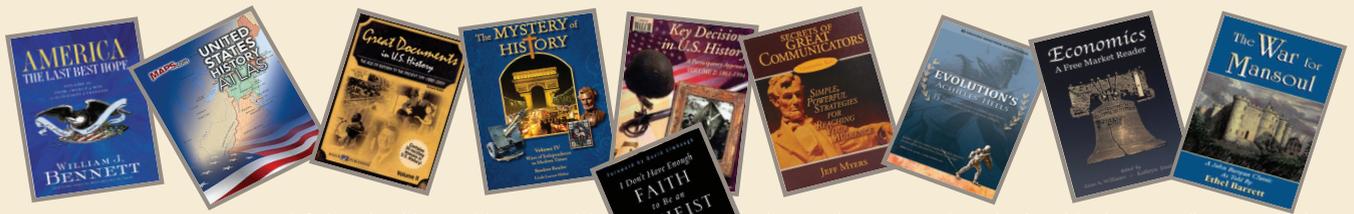

History II plans. While this set is not meant to fulfill your literature or history credits, it is meant to ignite a passion for learning, giving a window into what it would be like to... rise to the top of the business world with 'cereal tycoon' Henry Crowell; keep the Colorado ranch afloat with western grit and outlandish ideas with 11 year-old 'Little Britches'; transform weaknesses into strengths by 'carrying a big stick' with Teddy Roosevelt; add 480 rods of fence and cultivate 40 acres single-handedly with Hattie Big Sky; care for the homeless living in the housing camp 'Soo City' with 13 year-old Virginia; win the 400 meter race in the Olympics and countless hearts for Jesus in China with Eric Liddell; survive the Holocaust by escaping a concentration camp with teenager Anita; pilot a WWII plane and survive being shot down over enemy lines with Jim Yoder; overcome the bitterness of tragedy with Auschwitz survivor Josef Karski; flee to freedom by crossing the Berlin Wall with 12 year-old Gerta; escape war-torn Vietnam via 'Operation Babylift' with Young Long; create a thriving business under the oppressive rule of the Taliban with 'the dressmaker of Khair Khana'; lead a counterattack against terrorists on United Flight 93 with Todd Beamer; and more!

See history come alive as you gain a cultural as well as historical perspective of life in late American history. Capture the images of the memorable people you've met by keeping a full-color *Book of Centuries* with Amy Pak's timeline figures. Chronicle each pause on your *U.S. History II* adventure in your full-color *U.S. History II Journal*. Innovative entries like analysis of multiple primary source documents, graphic organizer style notes from video viewing sessions, multi-paragraph narrations, in-depth interpretation of maps, supported answers to critical thinking questions regarding U.S. documents, analysis of key decisions in U.S. history utilizing historical notes and thematic text, written opinions using excerpts to support conclusions, history-related shared talking points, and quotations in context grace the pages of this beautiful keepsake, while assessments such as key word, summary, detailed, topic, typed, opinion, persuasive, recorded, oral, and multi-paragraph written narrations keep the beloved Charlotte Mason flavor of the plans intact.

Next, delve into Economics by exploring God's principles for living a life of liberty, prosperity, and generosity via Chad Hovind's *Money-Wise DVD*, gain Bible-based wisdom on *Money Matters for Teens* with financial expert Larry Burkett, learn the difference between market entrepreneurs and political entrepreneurs in *The Myth of the Robber*

Comments

So, what do homeschoolers just like you have to say about U.S. History II?

"*US History II* was the perfect way to end our journey through homeschool. My kids were fully prepared for college and beyond with the amazing resources in this year of study. From the personal finance course to the public speaking course to the worldview study that prepared them to face the pressures of a secular world outside the home to the always excellent literature, history, and science (my kids' favorite science year yet), I do not believe there is anything out there to compare with the thorough, interesting, Biblical education that HOD has provided for our family. My three HOD graduates have done exceedingly well in college and in the workplace, and HOD plays a large part in their success. Thank you, Heart of Dakota!"

Tiffini in Avon, Indiana

"*US History II* has been such a blessing to our family. My son has learned to love history even more in high school, and your books and choices have definitely fed and encouraged that interest. I am grateful for the well laid out lesson plans for the students to follow as well."

Mandi in Sedalia, Missouri

"Where do I start? The book choices are excellent! An enjoyable selection that is thought provoking and stimulating, while not heavy. HOD not only teaches the facts of history but also the why's and wherefore behind the happenings. Each student is being challenged to deepen their knowledge of world happenings, past and present, while developing a close walk with our Saviour on a day by day, moment by moment basis. What a great finish to the high school years! I only wish we could have started with it in the beginning of our homeschooling journey 23 years ago!"

Salome in Manitoba, Canada

"HOD helped us to meet the home-educational goals we had for our son with exceptional academic rigor, vital character building, and rich spiritual training. So many of the wonderful stories he's read and discussions we've been able to have through HOD have helped strengthen his character and his walk with the Lord. Our son will be attending the University of South Alabama in the fall on a full-tuition scholarship and majoring in Mechanical Engineering. Most importantly, HOD has aided in equipping him for the world that he'll be heading into as a young adult, strong in his faith in Jesus Christ. I can't begin to thank you enough!"

Miranda in Moss Point, Mississippi

"We're very thankful for the hard work Carrie and her family have put into creating these guides! Our son has grown in wisdom and understanding of history and the Bible, of poetry and literature, of the sciences and maths in a way he never could have if it were left to me to gather all the parts to make such an incredible whole curriculum. The CM schedule has allowed him to pursue his gifts and interests in music throughout the years. Additionally, the gift of a deep and wide knowledge of history and literature from HOD has made CLEP testing an economical way to gain college credit pre-enrollment."

Learning Through History

Focus: The Transcontinental Railroad, Darwinism, Moody Revivals, and Fanny Crosby
Unit 1 - Day 4

U.S. History

I

Read about history in the resources below.

- ★ *Faith of Our Fathers* p. 121-126
 - ★ *Great Letters in American History* p. 161-169
- After reading, you will be writing a "Detailed Narration" about today's pages. To prepare for your narration, review possible topics to include in your narration by reading the first sentence of each paragraph on p. 121-127 of *Faith of Our Fathers*. Then, choose 4-5 topics from the reading upon which you can narrate in detail. List these topics at the top of Unit 1 - Box 6 of the *U.S. History II Journal*. Since this is not a summary narration, not all topics from the reading will be included. Next, in Box 6, write a 4-5 paragraph narration. Write so that the reader can visualize people, places, or events. Use descriptions that involve one's senses and include details that are specific and concrete (i.e. dates, names, places, locations, etc.). As part of your narration, include at least one quote from today's readings. Remember to place quotation marks around any quotes and to attribute the quote to the speaker within your sentence. When you have finished writing, use a yellow highlighter to highlight any detail words within your narration. See the *Written Narration Tips* in the Appendix as needed for additional guidance in narrating. Then, read your narration out loud to catch any mistakes. Use the *Written Narration Skills* in the Appendix as a guide for editing the narration.

Key Idea: D.L. Moody was a revival evangelist.

Living Library

I

As you read, look for passages or quotes that you find meaningful, significant, or symbolic. You may mark these passages or quotes using a pen or sticky notes. These passages should catch your attention, interest you, and make you think. Read the following assigned pages:

- ★ *The Cereal Tycoon* bottom of p. 47 - middle of p. 62
- After reading, select one passage or quote. Then, follow the directions and the format on the "Triple-Entry Journal Assignment" sheet to complete one journal entry in your notebook.

Key Idea: Read thoughtfully to select and comment upon meaningful quotes or passages using a triple-entry journal format.

Economics

I

Read and annotate the assigned pages noted below. An annotation is a way to connect with the text by underlining something to remember, circling key words, starring an important passage, placing a question mark next to something you wonder about, and writing brief questions, comments, or notes in the margin.

- ★ *Money Matters for Teens* p. 6-8

Key Idea: Learn why stewardship matters.

Foreign Language

I

- Choose one foreign language option below.
- ★ *Spanish II: Unit 1* p. 10-11 (Note: Refer to p. 2-9 to help you complete "Self Test 1.")

Key Idea: Study a foreign language.

Learning the Basics

Focus: Finance, Bible, Literature, Composition, Grammar, Speech, Math, Science
Unit 1 - Day 4

Finance

S

Use the resource below for today's activities.

- ★ *Foundations in Personal Finance: Teacher's Resources* CD

On the *Teacher's Resources* CD in the "Chapter 1" folder, print the "Activity: Parent Interview." After printing, give the first page titled "Parent Interview: Procedure" to a parent. Then, meet with a parent to complete the two remaining "Parent Interview" pages. Keep the completed "Parent Interview" pages in your course folder. Completion of the interview automatically earns a full grade.

Prayer: In your "Prayer Journal," write today's date and list the four parts of prayer (adoration, confession, thanksgiving, and supplication), writing each on its own line. Reflect upon the notes in the "Prayer Journal Insert" as you prepare to pray. After praying, list key words or phrases in your "Prayer Journal" to summarize your prayer. Highlight or circle any answered prayers.

Key Idea: Consider the importance of God's existence.

Science with Lab

I

★ Read *Our Created Moon* p. 6-10. Then, complete questions 1-10 on p. 101-102 of the Student Worksheets in the *Survey of Astronomy: Teacher Guide*. You will need to refer to p. 6-10 of *Our Created Moon* to answer the questions.

Key Idea: Learn about moons and gravity.

British Literature

I

Introduction: Reread the battle cry shouted by Shaddai's captains on the bottom of p. 54 of *The War for Mansoul*. According to John 3:1-3, what is meant by this battle cry? As you read today, think about the effect this battle cry has on the inhabitants of Mansoul.

Read and Annotate: *The War for Mansoul* p. 55-74 (Note: As one annotation, on p. 63 circle the "best weapons" that Diabolus uses in Mansoul. Then, underline the following sentence on p. 63: "No - Mansoul was no match for Diabolus - but Emmanuel was!") Also, on p. 65 circle the names of Emmanuel's five additional captains and standard-bearers. **Select:** Choose a passage from today's reading to copy in your *Common Place Book*.

Reflect: In your *Literature Journal*, write today's date. Reflect in writing upon the way Diabolus continues to mention man's free will as being in his favor. How can this be true? Underline the eight propositions Mr. Leath-Too-Stoop gives Emmanuel on p. 71-72. What is Diabolus' strategy? How does James 4:7-8 echo Emmanuel's responses?

Key Idea: Make allegorical connections.

Speech

I

Have students complete one studied dictation exercise (see Appendix for passages).

Read and annotate the assigned pages in the speech resource below.

- ★ *How to Become a Dynamic Speaker* p. 5-13

Key Idea: Learn to be a better communicator.

Math

S

Choose one math option. You may write an assignment next to the star.

- ★

Key Idea: Take Precalculus or College Algebra.

C Daily readings from the "Living Library" correspond with the history readings, providing a glimpse of life in a different time. Follow-up *Triple-Entry Journal* assignments include selection of meaningful quotes or passages, brief contextual comments, and written personal commentary.

D Daily Economics' assignments present a biblical case for free market enterprise, describe the role of entrepreneurs in economics, offer a Godly perspective for economic decisions, demonstrate how velocity affects business and investments, and relate history and politics to the study of economics. Articles by noted economists, video instruction with viewing guides, workbook lessons, discussion questions, biographical vignettes, study questions, and assessments are included. National standards for Economics are covered.

★ *I Don't Have Enough Faith to Be an Atheist:*

What do you say to those who believe having faith in a higher power is nonsensical, or to those who view Christianity as unreasonable? Authors Geisler and Turek show Christianity is not only more reasonable than other beliefs, but is indeed more rational than unbelief itself. They provide clear answers for those skeptical about Christianity, as well as for Christians seeking to articulate a solid defense of their faith. Orphaned, cast off by her hardened aunt, and maltreated at Lowood School, Jane Eyre did not begin life with good prospects. However, what Jane lacked in material comforts, she made up for with a fervent and vigorous spirit, self-respect, and a will to make a life of her own. When she finds herself working for Mr. Rochester as the governess of his ward, it seems chance has meted "a measure of happiness" at last: only to have it seemingly all snatched away as past mysteries reappear. The brooding master, "small and plain" Jane, and the love that binds them across the moors has installed this classic tale of love, betrayal, and forgiveness as one of the most enduring Victorian novels of all times. ★ *Pride and Prejudice*

"It is a truth universally acknowledged, that a single man in possession of a good fortune must be in want of a wife." Thus memorably begins Jane Austen's *Pride and Prejudice*, one of the world's most popular novels. This is the story of fiercely independent Elizabeth Bennet, one of five sisters who must marry rich. Rather than chasing marriage blindly, she routinely confounds the arrogant, wealthy Mr. Darcy. At first, Darcy is quick to write Elizabeth

off. Nonetheless, as life pits them against each other again and again, Darcy begins to fall for Elizabeth's wit and intelligence. Meanwhile, Elizabeth begins to question her feelings about Darcy. What ensues is one of the most delightful courtships known to literature. Humorous and profound, and filled with clever dialogue, this comedy dips and turns through drawing-rooms and plots to a satisfying finale. (\$6.99)

Enter Sherlock Holmes, summoned to protect Sir Henry from the fate that has threatened the

Baskerville family. As Holmes and Watson investigate, a blood-chilling howl from the fog-shrouded edges of the great Grimpen Mire signals danger. Can Holmes solve the case in time? (\$4.95)

★ *Prisoner of Zenda*

Anthony Hope's swashbuckling romance transports his English gentleman hero, Rudolf Rassendyll, from a comfortable life in London to fast-moving adventures in Ruritania. Rassendyll bears a striking resemblance to Rudolf Elphberg, who is about to be crowned King of Ruritania. When the rival to the throne attempts to seize power by imprisoning Elphberg in the Castle of Zenda, Rassendyll is

obliged to impersonate the King to ensure political stability. Rassendyll endures a trial of strength and a test of a different sort as he grows to love the Princess Flavia. (\$9.95)

No matter who you are or where you are called to serve, everyone needs to learn how to communicate with others. So, what does it take to be a really great speaker? This book is full of helpful illustrations taken from history, the Bible, and everyday life that will help you become a more "dynamic" speaker. Discover effective (yet simple) principles of public speaking; learn how to get over stage fright; analyze texts of America's best speakers; learn not only what they said and how they said it, but why they said it; and see how a profound sense of mission made their oratory remembered as some of the greatest thoughts to uplift the human race. Evolution's Achilles' Heels demolishes the pillars of the belief system that underpins our now-secular culture—evolutionary naturalism. Visually stunning animations and dramatic footage help to show how the theory's supposed strengths are, in fact, its fatal flaws—Evolution's Achilles' Heels. Like no other work available, fifteen Ph.D. scientists collaborated to produce this coordinated, coherent, powerful argument. All of the contributors

received their doctorates from similar secular universities as their evolutionary counterparts, and each is a specialist in a field relevant to the subject: Natural selection, origin of life, geology, genetics, radiometric dating, the fossil record, cosmology, and ethics. (\$19.00)

★ Survey of Astronomy

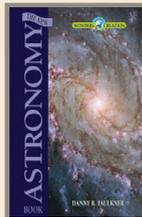

This Parent Lesson Planner for science from Masterbooks makes assessment easy, and provides all that is needed for a "Survey of Astronomy Course" in the form of student worksheets, quizzes, and answer keys. allows us to include several other books and DVDs that we also desire to coordinate with the study of Astronomy, one per student. (\$21.99)

★ Our Created Moon

about planets, moons, and comets within our own solar system. Enjoy this incredible look at the mysteries and marvels of space, marvel at the enormity and intricacy of its design, and learn to view the universe for what it truly is – an amazing declaration of the glory and power of God! (\$18.99)

★ What you Aren't Being Told About Astronomy DVD: Our Created Solar System

Did God create our Solar System less than 10,000 years ago, as the Bible says? Or did it form all by itself from a cloud of gas 4,600,000,000 years ago, as secular astronomers claim? Which account of history is true? With author Spike Psarris as your guide, explore the wonders of the heavens, visit each of the planets and their moons, view more than 230 breathtaking photographs, and see how each planet uniquely testifies

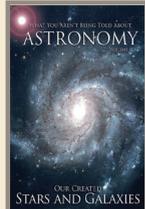

its Creator. Discover what you aren't being told about our Solar System with Psarris, who was an engineer in the United State's military space program... who entered that program as an atheist and an evolutionist... but who left it as a creationist and a Christian. (\$15.00)

★ Taking Back Astronomy

Within *Taking Back Astronomy*, you will study the facts that challenge secular theories and models of the universe – how it began and how it continues to amaze the scientific community. You will also explore numerous evidences that point to a young universe, like magnetic poles of planets, the spiral shape

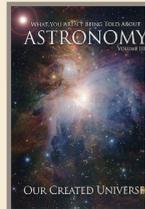

of galaxies, comets and how long they can last, and much more. Prepare to step out among the stars and experience the truly awesome power of God through this comprehensive guide of His vast creation. (\$16.99)

★ What you Aren't Being Told About Astronomy DVD: Our Created Stars and Galaxies

Our universe contains about 100 billion galaxies, each of which contains about 100 billion stars, but did you know that according to the secular model none of them should exist? In this DVD you'll see how recent discoveries contradict the naturalistic view of history, and you'll hear the words of secular astronomers admitting their models fail to explain the contents of the universe. You'll also discover evidence for design

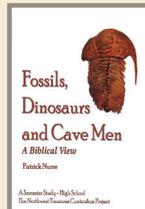

in the heavenly bodies, viewing over 130 breathtaking photographs, videos, and graphics from NASA. (\$15.00)

★ What you Aren't Being Told About Astronomy DVD: Our Created Universe

What is the universe's origin? Did it come from a Big Bang event billions of years ago? Or are the heavens consistent with the Biblical account of creation instead? The Big Bang is a popular creation myth within Western culture today. Secular cosmologists claim that the idea is a valid scientific theory, well-supported by evidence, but these claims are false. Not only is there abundant scientific evidence against the Big

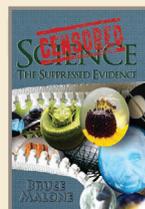

Bang, the model contradicts itself and has absurd implications. An objective evaluation of evidence does not support self-creation of the cosmos, but instead shows the heavens declare the glory of God! (\$15.00)

★ Fossils, Dinosaurs, and Cave Men

This book studies the differences between the Biblical and secular views of fossils, dinosaurs, and cave men. Lessons are designed to help the student understand the philosophy behind the Geologic Time Table, how dinosaurs fit into a Biblical perspective, and how the Biblical view of the Tower of Babel influenced the development of man and civilization. In addition the student will learn how to "read" the rock layers through a Biblical view of Earth history. This 180 page full color textbook covers many intriguing topics such as two

contrasting views of origin, the Biblical classification of living things, the cause and fossil evidence of the Genesis Flood, the geologic time table, transitional fossils, the two contrasting views of man, and fossil anomalies. (\$33.00)

★ Censored Science: The Suppressed Evidence

This stunningly designed, full-color book showcases the fifty best evidences for a biblical creation worldview. Each two page spread lays out the evidence for creation and then provides a rebuttal to the most common evolutionist objections to the evidence. Recently updated and expanded, this volume contains both cutting-edge evidence for creation and time-tested evidence which have never been answered by

those rejecting Biblical truth. Every page is a visual masterpiece, mating original photography or graphic designs with compelling text. Technically reviewed and endorsed by top scientists involved in creation research – including Dr. Steve Austin, Dr. John Baumgardner, and Dr. John Sanford – this coffee table quality hardback is worth owning.
